

SANDEEP BALABANTARAY

+91 9937084437 ✉ sandeepbalabantaray3@gmail.com in linkedin.com/in/sandeep-balabantaray-69b60221b

Education

Vellore Institute of Technology

Bachelor's in Computer Science and Engineering (B.Tech)

CGPA : 8.74

2022 - 2026

Experience

AirDawgs Labs

Jul 2026 – Present

AI Engineer — LLM Evaluation & Benchmarking

Remote

- Engineered 10+ terminal-based coding benchmarks using Go, Docker, and deterministic verifiers to evaluate frontier models including GPT-5.5 and Claude Opus 4.8.
- Built differential evaluation pipelines with oracle implementations and dynamic tests, analyzing frontier-model failures to improve benchmark reliability and difficulty.

Deccan AI

Feb 2026 - May 2026

Ops Associate & AI Trainer

Remote

- Annotated and ranked Gemini LLM responses across Web, Android, and iOS for RLHF/SFT workflows.
- Evaluated generative AI outputs for factuality, safety, relevance, and instruction-following to improve model alignment.

AlgoUniversity (YC S21)

May 2025 - July 2025

SWE Co-Op Intern

Remote

- Architected Codeblaze, an AI-enabled online judge for 500+ users, with self built Docker-based compiler, React + Tailwind dashboards, and an LLM-assisted evaluation pipeline. [Video Link](#)
- Scaled backend in Django/DRF with Docker-sandboxed judging and SQLite, handling 10K+ submissions/day.
- Deployed secure AWS infrastructure and developed an AI coding assistant for feedback, validation, and hint generation.

Madhya Pradesh Police

Dec 2024 - Feb 2025

Frontend Web Developer & Database Manager Intern

Bhopal, Madhya Pradesh

- Built intuitive React-based UI systems to digitalize 50+ police forms and reduce paperwork by 70%.
- Automated MongoDB and Excel-based workflows, significantly improving data retrieval and processing efficiency by 60%.

Projects : <https://github.com/AxilBlaze>

Traffic Sentinel | Computer Vision, Real-Time AI, WebSockets

Dec 2025 - Jan 2026

- Built a real-time traffic enforcement system processing 10 FPS live video streams, detecting 10+ violation types, and generating automated evidence-backed fines with less than 500 ms response latency.
- Designed production-grade ML orchestration handling 1,000+ simulated violations, integrating cloud storage, Firestore logging, deduplication windows of 2 hours, and automated email delivery with 99% success rate.
- [Video Link](#)

Nexus AI Gallery | DeepFace, GenAI(Gemini, Google ADK), Qdrant, ChromaDB

Nov 2025 - Dec 2025

- Architected a multimodal visual search pipeline using RetinaFace + FaceNet512 for biometric encoding and CLIP-based semantic retrieval, achieving 99% face detection accuracy.
- Implemented a high-recall vector search system with Qdrant (768-d embeddings) and Gemini-powered re-ranking to minimize false positives in strict semantic matching.
- [Video Link](#) [GitHub Link](#)

Technical Skills

Programming Languages: Python, HTML, CSS, Javascript

Frameworks: Django REST Framework, FastAPI, Flask-RESTful, Reactjs, Tailwind

Databases: MySQL, PostgreSQL, MongoDB, Vector Databases(QdrantDB, ChromaDB)

AI & Machine Learning: PyTorch, TensorFlow, Hugging Face Transformers, LangChain, Langgraph, CrewAI

Specialization: RAG Pipelines, LLM Integration & Prompt Engineering, Agentic Workflows, Computer Vision, DL, NLP

Achievements

- Meta HackerCup (AI Track) :** Finalist in Meta's ongoing official AI-focused coding competition.
- Coding Profile :** [LeetCode](#) (Knight, Rating: 1889, Top 5% globally) — [CodeForces](#) (Specialist, Rating: 1201)
- AlgoUniversity:** Earned 2nd place out of 1000+ students in a programming camp focused on advanced graph theory

Co-Curricular

Google X Kaggle Agents Intensive Capstone| Top 15 best projects

Nov 2025 - Dec 2025

- Selected among Top 15 teams in the Agents Intensive - Capstone Project, where I crafted the face recognition module and implemented Gemini-powered image extraction with re-ranking for enhanced semantic retrieval with 99% accuracy.

Smart India Hackathon| Qualified University Finals

Nov 2023 - Dec 2023

- Led the team in deploying an ML model for a healthcare project, advancing through all internal rounds and ranking among the top 20% of 200+ teams.
